The History

The hamlet of Laskay was founded in the valley along the East Humber River in the 1830s. The hamlet flourished with an Emporium and the Laskay Mill which were both built by the prominent Baldwin family. The Laskay Mill ground wheat for the community and flour was shipped by horse to Toronto. It has been reported that the first flour exported to Liverpool England from Canada was from Laskay Mill in 1849. The Laskay Mill was even featured on the cover of Elizabeth Gillham's history of King Township book! Now the Laskay Mill has been transformed into the Laskay Mill House.
